Triple Shades 2023

# Avant Triple Shade™

Avant Triple Shade™ features carefully selected fabric options paired with the innovative features of the CSA-153™ cassette system provides stability and style with ease of installation.

- Cassette & Bottom Rail with Matching Fabric Insert.
- Clutch/continuous cord operated shades are equipped with cord tension devices to prevent loops or loose cords from forming.
- Motorized operation utilizes industry leading motors that are known for their quiet operation and ease of use.

# Product Component Overview

## Avant Triple Shade™ System

- 1. Cassette
- 2. Bottom rail
- 3. Cassette End Cap (Right)
- 4. Cassette End Cap (Left)
- 5. Bottom Rail End Cap (Right)
- 6. Bottom Rail End Cap (Left)
- 7. Bottom Rod
- 8. Tube (38mm)
- 9. Inner Bracket (L)
- 10. Clutch (38mm)
- 11. Idle End Plug
- 12. Continuous Cord
- 13. Cord Tension Device
- 14. Cord Tension Device Mounting Bracket
- 15. Mounting Bracket
- 16. Clip
- 17. Level Controller Cap
- 18. Remote

## Minimum Size

Clutch operated with continuous cord .....	8" x 16"
Rechargeable Battery Motor.....	22 1/2" x 16"
Hardwired DC Motor .....	15 5/8" x 16"

\*Please refer to Color Table and Fabric Technical Data pg. TR-06 for further information regarding *maximum shade size*.

## Standard Cord Length

Shade Height	Cord Length
18"-27 7/8" .....	18"
28"-39 7/8" .....	24"
40"-59 7/8" .....	36"
60"-83 7/8" .....	48"
84"-107 7/8" .....	60"
108" and over .....	72"

\*If any cord or metal chain measures 97" to 140", a surcharge of \$8.00 will be applied.

\*\*All continuous cords will be matched to the appropriate component color. Please refer to Color Table and Fabric Technical Data page (see page TR-06).

## Side by Side Alignment

- Allowable tolerance for fabric pattern alignment of side-by-side shades is up to 1/4".
- Only applicable for shades ordered at the same time with identical height, fabric style, and
- color. Please specify desired line numbers under the side-by-side column on the order form.

## Tube Size

Shade Size	Internal Dimension	Outside Dimension
Up to 78"	36mm	38mm
78 1/8" & above	38mm	40mm

## Component Color Option

## Finished Dimensions

	Inside Mount (IM)	Outside Mount (OM)	End Mount (EM)
Cassette unit	-1/8"	-0"	-5/8"
Shade height	-1/8"	-0"	-1/8"
Fabric width	-1 1/16"	-1 1/16"	-1 9/16"

## Mounting Requirements

Inside Mount	
Minimum Casement Depth.....	2"
Fully Recessed .....	3 5/8"
Outside Mount	
Minimum Mounting Surface Height.....	1 3/4"
End Mount	
Minimum Casement Depth .....	2"

## Bracket Requirements

Shade Size	# of Brackets
Up to 40" .....	2
40 1/8" - 70" .....	3
70 1/8" - 96" .....	4

## Light Gaps

Light gap is measured from the edge of the window opening to the edge of fabric.

Inside Mount	
Clutch Side .....	1/2"
End Plug Side.....	5/8"

## Fabric Note

- The overlapping portions of sheer on the fabric may cause a slight moiré effect.
- Due to the inherent characteristics of textiles, waviness and wrinkles may be present and should be considered normal. Please note that these characteristics may be more pronounced on wider shades.

## Child Safety Tension Device

In accordance with the revised American National Standard (ANSI WCMA A100.1- 2018) for Safety of Corded Window Covering Products, Combi Shade® requires proper mounting of the tension device on cords that exceed 40% of the shades height for the product to function safely and properly. Tension devices should not be modified in any way.

## Tile Cut

Upon request, the bottom bar assembly and fabric can be cut down to a specified size, different from the width of the cassette assembly.

### Measuring and ordering "Tile Cut".

#### Step1

Measure the uppermost position "A" of the window opening to determine the window opening size.

#### Step 2

Measure the inside width of the window opening at the lowermost position "B" to determine the bottom window opening size

#### Step2

Please specify the determined width of the lowermost position under "tile cut" column.

## Measuring Corner Windows

There are a few different approaches to measuring for corner windows. Please consider the formed light gap in relation to viewing angle from both inside and outside and how this might affect privacy.

### Options 1 & 2

#### Step1

Measure the inside width of both window openings at the uppermost position to determine the widths of the cassette.

#### Step2

Decide which of the two shades will be full or butt shade.

#### Step3

Deduct 3 3/8" from the determined width of the butt shade.

#### Option 1

#### Option 2

### Option 3

#### Step1

Measure the inside width of both window openings at the uppermost position to determine the widths of the cassette.

#### Step2

Once both measurements are acquired, deduct 3 3/8" from both shades.

#### Option 3

#### Important!

This option will greatly increase the amount of light gap formed along the corner.

# Avant Motorized Controllers

Combi Shade® motorized shade systems offer consumers the option of integrating their motorized shades with a compatible smart home application through the use of Neo Link Box. This small and innovative device modernizes the way consumers can operate their shades, by providing access from a smart device. Simply download the free Neo app thru Google play or Apple App store. Once set up, consumer will have the ability to control one or various shades through their smart devices remotely. In addition, the Neo link box may be integrated for voice command through Amazon Alexa, Control4, Google Home, and Savant.
