## Inspired Shade SolarPack Installation Guide

Instructions

1.Inspired Solar Pack is designed to work with Inspired Wirefree shade,including alternative options for installation in different location.

2. With direct sunlight, the solar pack provides consistent and steady source of power throughout the year.
Part Overview
1. Solar Charging Panel
2. 3M Adhesive Tape
3. Retractable Ceiling Mounting bracket

Solar panel only works with direct sun light, make sure that it is mounted properly. Typical scenarios are listed below.
Do NOT use solar panel for below window.

Single or Double Pane OK

Light Transmission>65%

Clear   Tinted

⚠ Do Not Use Solar Panel Under Below Conditions

Awnings   Deep Eaves   North Facing   Vegetation Blocking Light   Insect Screen

Solar Panel Installation

Use 3M Adhesive Taps.

1. Choose locations to mount the solar panel.

Option 1:Horizontal mount inside or outside of window frame

Option 2:Vertical mount inside or outside of window frame

Option 3:any other location that works for your specific installation

2. Wipe the location and make sure it is dry before you mount the solar panel.

3. Peel away the liner on one side of the tape first and put them on the two ends of the panel, make sure your skin is not in direct contact with the adhesive, which will reduce the viscosity.

4. Peel the other liner away and suppress the solar panel to the determined location.

Use Retractable Ceiling Mounting Bracket

1. Pile the sliding bracket and the L-shape bracket together and put the two screws and nuts on them, but just screw a little bit, make sure that you can still move the sliding bracket if you need to adjust the mounting height of the solar panel.
2. Ceiling mount the L-shape bracket to the window frame between the glass and shade, then adjust the mounting height by slide the sliding bracket up and down, screw the two screws tight to fix the position.
